

## Gastroenterology – Scope of Practice

Clinical Institute: General Surgery and Gastroenterology

Procedure Name	Tier
Balloon dilation of stricture	Tier A
Colonoscopy	Tier A
Consulting	Tier A
Diagnostic upper GI endoscopy including mucosal biopsy of the oesophagus, stomach and duodenum	Tier A
Double-balloon Enteroscopy	Tier A
Duodenal stent placement	Tier A
Flexible sigmoidoscopy	Tier A
Gastric or duodenal polypectomy	Tier A
Gastroscopy	Tier A
Hemostasis of colorectal mucosal bleeding including adrenaline injection, argon plasma coagulation, hemostasis clips	Tier A
Hemostasis of: Non-variceal bleeding (inc but not limit to adrenaline injection, heat probe, argon plasma coagulation, hemostasis clips); Variceal bleeding (inc but not limit to endoscopic variceal band ligation, injection of bleeding varice)	Tier A
Liver Biopsy	Tier A
Oesophageal Dilation under fluoroscopic control	Tier A
Oesophageal prosthesis	Tier A
Paracentesis	Tier A
Percutaneous endoscopic gastrostomy	Tier A
Percutaneous endoscopic jejunostomy tube insertion	Tier A
Placement of nasoenteric feeding tube	Tier A
Placement of Sengstaken-Blakemore or Minnesota tube	Tier A
Push Enteroscopy	Tier A
Replacement of PEG	Tier A
Snare polypectomy	Tier A
Therapeutic Upper GI endoscopy: Oesophageal dilatation Oesophageal stent placement	Tier A
Bariatric Surgery - primary intra-gastric balloon	Tier B
Biliary Radiofrequency Ablation (RFA)	Tier B
Colon stent placement	Tier B
Endoscopic Full Thickness Resection Device (EFTRD)	Tier B
Endoscopic mucosal resection	Tier B
Endoscopic retrograde cholangiopancreatography (ERCP) +/- radio frequency ablation	Tier B
Endoscopic ultrasound	Tier B
Faecal Microbiota Transplant	Tier B
Oesophageal Manometry	Tier B
Oesophageal pH Testing	Tier B
Overstitch Endoscopic Suturing	Tier B
Radiofrequency Ablation for Barrett's Oesophagus	Tier B
Wireless capsule endoscopy	Tier B
