

Chronic, persistent non-cancer pain: managing it and having tricky conversations about opioids

Topics | Speakers

Pain education as a treatment modality, Ms Alison Sim, Osteopath

Managing lower back pain and lumbar spine issues in the elderly,
Mr Girish Nair, Neurosurgeon

Managing chronic pain and opioid use, Dr Diarmuid McCoy, Specialist
Pain Medicine Physician

Learning Outcomes

1. Use pain education as a treatment modality for patients with chronic pain.
2. Identify which patients are suitable to refer to a pain physician or a neurosurgeon.
3. Recognise when a patient has chronic persistent non-cancer pain, and possible options for treatment.
4. Explain how to have the conversation that opioids are causing harm and what to do next.
