

DATE THURSDAY 4TH OF AUGUST 2022

TIME: 7.00pm – 8.15pm

SPEAKERS/TOPICS

CLOTS & COVID:

- 1. Refresher on coagulation studies: Making the miserable less miserable**
Presented by Dr Tze Ven Jong, Haematologist
- 2. "Long COVID-19" - What do we know and what is yet to be learned?**
Presented by Dr Aaron Walton, Infectious Diseases Physician

OVERVIEW

Since the start of the COVID-19 global pandemic, it quickly became clear that patients have managed and recovered from COVID-19 very differently. Blood clotting and long-term symptoms have been two commonly discussed side effects that have affected patients differently depending on many factors.

Dr Tze Ven Jong will provide an update on coagulation studies = in both interpreting them and the diagnostic workup of coagulopathies.

Dr Aaron Walton will then go onto provide a review of the state of the science on post-COVID syndrome, with advice on clinical assessment, possible therapeutic approaches and discussion of available referral pathways.

This GP Education webinar is hosted by Epworth Geelong and will include case-based presentations and the opportunity for Q&A with our speakers.

LEARNING OUTCOMES

1. Interpret coagulation studies
2. Interpret diagnostic workup of coagulopathies
3. Define and recognise post-COVID-19 syndrome

REGISTRATION

REGISTER HERE or visit <https://www.epworth.org.au/for-gps>

Registration requirements:

- First name and surname
- Email address
- RACGP or ACRRM number
- General Practice name, suburb and postcode
- Occupation
