

PAINFUL PERIANAL CONDITIONS COLORECTAL CANCER SCREENING AND DIAGNOSIS

DATE: WEDNESDAY 21st SEPTEMBER 2022

TIME: 12.30pm – 1.30pm

TOPIC 1

PAINFUL PERIANAL CONDITIONS

Presented by **Mr Timothy Chittleborough**, Colorectal Surgeon

There is a wide range of pathology to account for painful anal conditions. This talk will provide an overview of painful anal conditions, outlining management, indication for specialist referral, and red flags for malignancy.

TOPIC 2

COLORECTAL CANCER SCREENING AND DIAGNOSIS

Presented by **Mr Jacob McCormick**, Colorectal Surgeon

- Why this is important
- Colorectal cancer survival data in Australia
- What screening involves in Australia
- Evidence behind screening
- Who NBCSP (FOBT) screening is appropriate for
- Which patients are inappropriate for NBCSP (FOBT) screening

LEARNING OUTCOMES

1. Identify differential diagnoses for painful anal conditions
2. Identify red flags for sinister pathology and arrange referral
3. Outline screening methods for colorectal cancer
4. Discuss suitability of patients for NBCSP (FOBT) screening
