

Familial Gynaecological Cancers seminar

Presented by the Epworth Women's and Children's Clinical Institute

Saturday, 12 November 2022 | 8.45am – 1.00pm
Epworth Richmond Auditorium and via Zoom

Using case based discussion, this half day seminar will provide GPs, gynaecologists, trainees and other interested health professionals with an update on familial gynaecological cancers.

Topics covered

- > Lynch and Familial Ovarian Cancer Genetics – why they're important, when to refer, how to refer
- > Lynch and Familial Ovarian Cancers – diagnosis and surgical management
- > How genes shape adjuvant treatment for Lynch and Familial ovarian cancers
- > Menopause and long term health after cancer treatment
- > Risk reducing Surgery – counselling, the risks and benefits, the surgery
- > Effects of breast cancer treatment and long term women's health

Presenters

- > Professor Ingrid Winship
- > Dr Kym Reid
- > Associate Professor Sumi Ananda
- > Dr Liz Farrell
- > Dr Rachel Ryan
- > Dr James McCracken
- > Dr Jenny Huynh
