

Eleventh Cardiac Sciences Clinical Institute Symposium

Saturday 3 September 2022

8am – 4.30pm | Park Hyatt Melbourne and online

This year the symposium will acknowledge Master Surgeon Professor Brian Buxton AM and his global contribution to the field of cardiac surgery.

Registration now open!

This year we will adopt a hybrid model offering delegates the choice of attending in person or joining the event online. Join us for novel therapies, controversies and consensus in cardiovascular health.

The case-based format is designed for primary care physicians, clinical cardiologists, interventional cardiologists, cardiovascular surgeons, vascular medicine specialists, nurses, catheter laboratory technicians and other health professionals with a special interest in the field of cardiovascular medicine.

Program highlights

- > Professor Brian Buxton's impact on cardiac surgery
- > The forgotten valve: Tricuspid intervention
- > The importance of cardiac rehabilitation
- > Mitral repair vs Mitraclip
- > New drugs in the changing landscape of cardiac failure
- > Progress due to registries in cardiovascular disease
- > Aortic stenosis: Lifelong therapeutic strategy

Guest presenters

- > Professor James Tatoulis
- > Dr Saibal Kar (USA)
- > Dr Alexandra Murphy
- > Dr Mark Horrigan
- > A/Prof Antony Walton
- > Epworth Cardiac Sciences
Clinical Institute members
