Join Epworth Geelong specialists for an evening of urology & oncology updates for GPs

Overview

General Practitioners play a pivotal role in the early detection, referral, and ongoing management of patients with urological and oncological conditions. This targeted update is designed to provide practical insights you can immediately apply in everyday practice. Enhance your confidence in managing macroscopic haematuria, navigating bladder cancer pathways, and staying current with urological cancer advances. Introduction to Epworth Geelong's New Day Oncology unit and oncology rehabilitation unit.

Join us to strengthen your clinical decision-making, improve patient outcomes, and build stronger connections with local specialists.

Presented by

Dr Sarah Norton

Urologist

Dr Sarah Norton is a Consultant Urologist with extensive experience working at Epworth Hospital and University Hospital Geelong. She manages a broad range of urological conditions, with a strong focus on delivering patient-centred, comprehensive care.

Dr Kate Dunn

Medical Oncologist

Dr Kate Dunn trained across The Alfred, Peter MacCallum Cancer Centre and Barwon Health, with experience in clinical trials and immunotherapy. She is a VMO at Barwon Health and Ballarat, and a research fellow at WEHI. Her interests include breast, gynaecological and head & neck cancers, with a focus on personalised, holistic and compassionate care.

Epworth Representatives:

Lisa Garner, Assoc. Director of Clinical Services

Tanya Deans, Allied Health Manager
