HEREDITARY GASTROINTESTINAL CANCER

WEBINAR PROGRAM

DATE and TIME

Monday 15th March 2021, 12.30pm – 1.30pm

Epworth Richmond, 89 Bridge Rd Richmond VIC 3121 - via **ZOOM WEBINAR**

SPEAKER Dr Andrew Buckle and Professor Alex Boussioutas, Gastroenterologists

TITLE Hereditary Gastrointestinal cancer and high risk endoscopic screening – when to refer and who to refer to

FORMAT CPD Activity | Webinar | Presentation and Q&A

SESSION OVERVIEW

Gastroenterologists, Dr Andrew Buckle and Prof Alex Boussioutas, will present this GP webinar in two parts. The first section will review common hereditary syndromes in GI cancer such as Lynch Syndrome Fap and Hereditary Diffuse Gastric Cancer and outline how to identify patients and refer them to appropriate services. The second section will be about managing high risk patients and an overview of guidelines for endoscopic screening. Dr Buckle and Prof Boussioutas have successfully designed and implemented a GI High Risk Management Service and will present data on how it functions and critical outcome measures that show it to be very successful in early detection and prevention of cancer.

LEARNING OUTCOMES

1. Review the common genetic syndromes in GI cancer
2. Outline how to assess and manage risk
3. Identify when to worry and refer
4. Discuss patients suitable for genetic testing of GI cancer

REGISTRATION

[REGISTER HERE](https://www.epworth.org.au/for-gps) or visit <https://www.epworth.org.au/for-gps>

Registration requirements:

- First name and surname
- RACGP number
- General Practice name
- General Practice suburb and postcode
- Occupation
