

Epworth

Cleaning and disinfection of reusable goggles and face shields

- 1** Using a disinfectant wipe:
 - > Firstly wipe the inside of the shield
 - > Followed by the outside of the shield

- 2** Allow at least 60 seconds drying time

- 3** If there is a residue from the disinfectant then wipe with clean water

- 4** Allow to air dry or dry with an absorbent towel

- 5** At end of shift or during a break, store safely and separately
