# ABOUT OUR SERVICES

## EPWORTH HAWTHORN ACUTE AND REHABILITATION SERVICES

50 BURWOOD ROAD, HAWTHORN VIC 3122 • 03 9415 5777

### ACUTE SURGICAL SERVICES AT EPWORTH HAWTHORN

Epworth Hawthorn is proud to deliver exceptional care and a positive patient experience in a tranquil environment away from the hustle and bustle of a larger hospital setting.

Surgical facilities include three operating theatres, eight acute inpatient beds, a day surgery centre and consulting rooms. Our patient rooms are spacious, light-filled and private, with ensuites.

You can refer your patient through one of the doctors listed on the previous page.

### REHABILITATION AT EPWORTH HAWTHORN

Epworth Hawthorn is renowned for its care of orthopaedic and multi-trauma patients following an accident, injury or major surgery.

Our facilities include therapy spaces utilising the latest equipment, on-site consulting rooms and 30 spacious, private rehabilitation rooms equipped with ensuites.

Outpatient rehabilitation programs are also available on-site, including:

- **Concussion Clinic:** to screen, assess and treat people with ongoing concussion symptoms.
- **Spasticity Clinic:** to assess and manage individuals with upper or lower limb spasticity as a result of a neurological condition.
- **Olfactory Impairment Clinic:** to assess and manage the loss of smell and changes in taste, often experienced as a consequence of traumatic brain injury, Parkinson's disease, facial fractures, stroke and other neurological conditions.
- **Oncology programs:** to support the physical, functional and emotional needs associated with a cancer diagnosis, treatment and recovery.
- **Musculoskeletal programs:** for joint replacement surgery, amputees, arthritis or multiple physical trauma, including programs to facilitate return to work, return to driving, return to running and return to cycling.

### REHABILITATION AT OTHER EPWORTH SITES

Rehabilitation programs are also available at Epworth Brighton, Epworth Camberwell and Epworth Richmond to support conditions including:

- Chronic pain
- Cardiac care
- Falls and balance
- Parkinson's disease
- Acquired brain injury
- Obesity
- Ageing and reconditioning
- Sleep studies and respiratory conditions
- Osteoarthritis

### REFERRING TO REHABILITATION PROGRAMS
