OUR STAFF enable us to provide EXCELLENCE EVERYWHERE EVERYDAY

GRADUATE PROGRAMS

Epworth
Epworth HealthCare has remained dedicated to providing outstanding patient care since it founded in 1920, as 25 bed Methodist Hospital. Epworth has developed into becoming Victoria’s largest private, not for profit, healthcare provider during its nine decades of evolution, demonstrating its commitment to caring within the Victorian community.

All aspects of Epworth’s development during this time have been about creating improved facilities and services, comprehensive clinical education and world-leading research to improve patient outcomes.

Epworth has a proud history of innovation in technology and services, achieving many medical ‘firsts’ and introducing new technologies to Victorian, and Australian healthcare. From the first specialist area, established in the mid-1960s, Epworth now has more than 40 clinical specialities that draw medical specialists with nationally, and often internationally, recognised reputations for excellence.

Significant building projects and investment in equipment and technology have been undertaken over the years, growing Epworth from a small facility on Richmond Hill to a multidisciplinary healthcare service spread across metropolitan Melbourne. This includes Epworth Richmond, Epworth Freemasons, Epworth Eastern, Epworth Camberwell, Epworth Brighton and Epworth Hawthorn. Epworth also now operates a range of specialty clinics, including the Women’s and Men’s Health Clinics, the Breast Clinic, Epworth HealthCheck and Epworth’s Specialist Centres. Epworth Geelong, our new hospital, will open in mid-2016.
More recently, Epworth Pathology has collection centres at every Epworth site and our new partnership with Sonic Healthcare and Epworth Medical Imaging, provides patients with access to advanced medical imaging services at Epworth Freemasons and Epworth Camberwell, expanding to Epworth Richmond and Epworth Geelong in the near future. Likewise, Epworth’s new mental health service, Epworth Clinic, provides comprehensive mental health care and rehabilitation from its base at Epworth Camberwell.

Since establishment of the nursing school in 1921 Epworth has retained its focus on professional development and its history as a teaching hospital means the organisation attracts and retains a team of dedicated, high-calibre staff and doctors. Epworth partners with key universities and TAFE colleges across Victoria as well as healthcare providers internationally, to offer unparalleled opportunities in clinical practice, research and education. Epworth’s commitment to research as a means to continually improve patient outcomes is also undertaken in partnership with leading universities and research bodies within Victoria, Australia and worldwide.

Research activity at Epworth is also supported by the Clinical Institutes, the Victor Smorgon Epworth Education and Research Institute, the Clinical Trials and Research Centre and Epworth’s affiliation with the Cleveland Clinic.

For more than 90 years patients and doctors alike have chosen Epworth. Today Epworth is setting the standard for private healthcare in Victoria – for the next 90 years and beyond.

**OUR PURPOSE**

To improve the health, wellbeing and experience of every patient by integrating clinical practice with education and research.

**OUR VISION**

The Epworth Experience – consistently delivering excellent patient-centred care with compassion and dignity.

This means that by 2017 we will be the leading patient-centred and academic healthcare organisation in the Victorian private sector.

---

Strategic Plan:
Summary 2015 – 2017

**PATIENTS**

High quality care and experience through all interactions with patients.

**DOCTORS**

Attract and retain excellent specialists who are committed to Epworth.

**COMMUNITY**

Enable our staff to be their best and give their best.

**FINANCE**

Ensure financial sustainability to deliver on our purpose.

**ACCOUNTABILITY**

Ensure transparency in all aspects of our business.

**EXCELLENCE**

Advance and promote innovation and education that transforms patient outcomes.

**RESEARCH & EDUCATION**

Advance and promote research and education that translates to further improvements in healthcare.

**INTEGRITY**

Maintain the highest ethical standards of care, practice and governance.
Epworth HealthCare provides a dynamic and supportive environment where Registered and Enrolled Graduate Nurses and Midwives can transition to high levels of independence and strive for excellence in their clinical practice.

Our highly successful Graduate Programs are supported by Senior Specialist Clinicians, dedicated Graduate Nurse Program Coordinators at each site, and Clinical Educators from across the group.

Graduate opportunities
Epworth HealthCare runs the following programs for graduate nurses:

Registered Nurse Graduate Program
Epworth Eastern
Epworth Freemasons
Epworth Geelong
Epworth Rehabilitation and Mental Health - (Rehabilitation Stream)
Epworth Clinic - (Mental Health Stream)
Epworth Richmond

Graduate Midwife Program
Epworth Freemasons

Enrolled Nurse Graduate/Professional Development Program
Epworth Eastern
Epworth Freemasons
Epworth Geelong
Epworth Richmond

Benefits of working at Epworth
Epworth is a friendly, modern and progressive workplace which offers staff many benefits, including:

- Salary packaging, which enables employees to receive more of their income tax-free and enjoy a tax-free meal allowance
- Employee Assistance Program (EAP), which provides employees free, confidential professional expert knowledge and skill in counselling for work related and personal issues
- My Benefits Program, providing shopping, lifestyle, entertainment and financial discounts and benefits.

Graduate Nurse Programs

Ongoing support for professional training and development, including extensive in-service training, leadership development and an annual scholarships program

All sites are in close proximity to public transport, with secure paid parking available at most locations

On-site cafe/bistro facilities at Epworth Richmond, Epworth Camberwell, Epworth Eastern and Epworth Freemasons

A well-equipped library service to support the research and studying requirements of staff.

Employer of Choice for Women
Epworth HealthCare values the diversity of its staff community and strictly adheres to its equal opportunity policy. Epworth HealthCare has been awarded the EOWA Employer of Choice for Women every year since 2001, and was the first Victorian hospital to receive this award. Epworth HealthCare has policies and practices that support women across the organisation, which have had positive outcomes for both women and the organisation.

Commitment to teaching and research
At Epworth, the number of employees and students seeking to further their career in Nursing, Medicine and Allied Health is growing every year. To further this growth, Epworth is evolving to a full teaching hospital by building the resources and facilities to educate the current and future clinical workforce. This includes the development of two simulation centres, one based in Richmond and the other at Epworth Eastern. We are also increasing our research efforts, through initiatives like the Centre for Clinical Nursing Research, a collaborative partnership between the School of Nursing at Deakin University and Epworth HealthCare, ensuring close collaboration between basic scientific research and clinical practice. Through expanded research and teaching, we are working to improve the quality of care and outcomes for patients into the future.
Our Registered Nurse Program facilitates your transition to become a confident and competent Registered Nurse through an exciting educational program.

Clinical experience
The Registered Nurse Graduate Program operates across all four divisions of Epworth HealthCare and offers:

- a structured and challenging clinical learning environment which has both support and variety
- collaboration with educational staff in order to shape your Graduate year
- the opportunity to develop a sense of belonging through collegiality and shared values through the Epworth personcentred culture.

Clinical support
The Epworth HealthCare Graduate Nurse Program begins with a comprehensive orientation. This is designed to prepare you for clinical work and introduce you to nursing at Epworth. We recognise that clinical support is critical to your transition and development. Support systems are in place across divisions and may include:

- GNP Coordinator at each division
- Designated Clinical Resource Nurses and qualified Educators
- Preceptors to work with you throughout your graduate year.

Educational support
Our Graduate Nurse Program includes a structured theoretical component comprising:

- Five study days are scheduled throughout the year providing shared learning opportunities across the divisions, focusing on professional issues as well as providing ongoing education to meet your clinical needs
- Epworth HealthCare conducts regular educational programs across many specialties, which Graduates are encouraged to attend
- Support for those Graduates completing Honours Programs.

Work hours
Graduates are employed on a part-time basis (4 days per week).
We encourage flexibility in rostering and it is expected that you will work day, evening, weekend and night duty shifts.

Professional development
Epworth HealthCare encourages professional development and has affiliations with major universities and offers support of post-graduate diplomas in many nursing specialties.

Educational opportunities are available at each site for graduates and staff – ranging from ward inservice to seminars on a broad range of topics.
Our Graduate Midwives strive for the highest standards of practice and learning in a supportive environment, to become valued and experienced analytical midwives.

Applications are invited from Bachelor of Midwifery, Bachelor of Nursing/Midwifery and Postgraduate Diploma of Midwifery Graduates.

Clinical experience
Over the 12 month program you will gain experience in our Delivery Suite, Ante/Post Natal Ward and Special Care Nursery.

Educational support
The program begins with an orientation to introduce you to Epworth Freemasons. Four study days are scheduled throughout the year, focusing on professional issues and ongoing education. Epworth Freemasons offers a supportive, professional environment with Supernumary time, Clinical Nurse Specialist and Clinical Nurse Educator support.

Work hours
Four days per week. You will be required to work day, evening, weekend and night shifts.

Professional development
- Introduction to simulation program
- Access to staff in service education
- Opportunity for you to continue working as a Midwife at Epworth Freemasons at the completion of the Graduate Program.

Midwifery Programs
Our Enrolled Nurse Graduate Program offers an intense but rewarding opportunity to experience the acute care setting unmatched by any other organisation.

The Enrolled Nurse Graduate Program is run at Epworth Richmond, Freemasons and Eastern campuses, expanding to Geelong. You choose and apply to the division that best meets your clinical and situational needs. Our 12 month program is flexible and tailored for you with 2 rotations in acute clinical units.

Educational support
The Enrolled Nurse Programs begin with extensive orientation. This is designed to prepare you for clinical work and introduce you to Nursing at Epworth. The program includes a structured theoretical component, consisting of five paid study days throughout the year. These are focused on professional issues as well as providing ongoing education to expand your scope of practice. It is our expectation that successful applicants will actively seek out learning opportunities.

Work hours
Graduates are employed on a part-time basis (min 4 days per week). We encourage flexibility in rostering and it is expected you will work day, evening, weekends and some night duty shifts.

Professional development
The Program provides ample opportunities for graduates to undertake study towards further qualifications. On successful completion of the Program, opportunities for ongoing permanent employment at Epworth are also available.
Introduction to Specialty Practice
Introduction to Specialty Practice is offered throughout Epworth HealthCare for registered nurses. This supportive program enables nurses’ entry into specialty clinical practice areas. The specialist areas include:

> Orthopaedic
> Neurological
> Perioperative
> Oncology
> Critical Care (Cardiac, Emergency, Intensive Care)
> Acute surgical
> Rehabilitation
> Mental Health
> Midwifery

The program is flexible to meet the needs of the participants with rotations through these areas. Educational support is offered throughout the program.

Post-Graduate Program
Epworth HealthCare, in collaboration with major universities, provides an extensive range of post graduate educational opportunities for nursing staff. Epworth staff have the opportunity to apply for post graduate financial support.

Epworth nurses can gain exposure to a diverse range of clinical environments while studying for post graduate qualifications. Post graduate courses are offered in the following areas:

> Critical Care
> Emergency
> Midwifery
> Perioperative Nursing
> Orthopaedics
> Neuroscience
> Oncology
> Gen Med/Surgical

One of Epworth’s values is excellence, and that really shines through in the area of education

How to Apply
Epworth Eastern is a state-of-the-art hospital located in Box Hill. Opened in 2005, we offer a broad range of clinical specialties supported by an ongoing commitment to excellence and innovation in clinical and patient care. As a result, Epworth Eastern was awarded the 2009 APHA Award for Clinical Excellence.

Epworth Eastern is a 223 bed, tertiary level acute surgical and medical facility – with approximately 73% of these being private rooms. We follow a patient centred model using team based nursing.

In 2012 Epworth Eastern was awarded the 2012 Studer Crystal Flame Organisation of the year. This is an international award for healthcare excellence.

Specialties
- General surgery
- Gynaecology
- Colorectal
- Cardiac
- Vascular
- Orthopaedics
- Oncology and Day Oncology
- Urology
- Endoscopy procedures

To date we have undertaken in excess of 10,000 procedures in our theatres and endoscopy suite and in excess of 1000 procedures in the Catheter Lab, with growth in the Cardiothoracic areas.

Features
Epworth Eastern boasts the following facilities:
- Leading edge technology
- E-Prescribe system – no paper drug charts
- Digital operating theatres
- 1 da Vinci robots used for gynae, urology and colorectal surgery
- State of the art angiography system for diagnostic and interventional procedures – both cardiac and vascular
- Partnership with Peter Mac oncology services
- 2 radiotherapy bunkers
- 8 bed Intensive Care Unit Coronary Care and High Dependency Unit
- Touch-screen operated patient infotainment units, offering bedside access to radiology and pathology results
- New Education Centre with state of the art technology, simulation room with OT and ward capabilities and tutorial rooms.

Other services at Epworth Eastern
- Catheterisation laboratory
- Non Invasive Cardiac
- Day Surgery
- Day Oncology

- Hospital in the Home
- Speech Therapy
- Discharge Planning Coordinator
- Pastoral Care

If you’re thinking about Epworth I love it, I totally recommend it – it’s a great place to work!

Asha – Epworth Eastern
As the city of Greater Geelong continues to grow, so does its need for additional healthcare services.

Epworth Geelong is our new campus opening to patients in mid-2016, providing comprehensive medical and surgical acute and rehabilitation care to present a new choice for healthcare and offer additional services to the growing region.

Located on Pigdons Road next to Deakin University’s Waurn Ponds campus, Epworth Geelong will provide:

- 262 overnight inpatient beds (medical, surgical, obstetrics and rehabilitation) including:
  - 12 ICU beds
  - 8 special care nursery cots
  - 8 complex care unit beds

- Emergency department – 20 treatment spaces
- 11 operating theatres including 1 hybrid
- 6 birthing suites
- 2 catheter laboratories
- 2 procedure rooms
- A clinical education and simulation precinct with medical library and simulation rooms
- Private consulting suites and sessional consulting rooms
- On-site pharmacy, pathology and medical imaging. medical imaging
- Ample on-site car parking.

Epworth Geelong will provide quality patient care through linking clinical practice with teaching and research, working in Partnership with Deakin University to incorporate a dedicated education precinct, purpose-designed teaching programs and integrated learning facilities within clinical areas of the hospital.

These facilities will enable clinical education at Epworth Geelong for undergraduate and postgraduate medical, nursing and allied health students and will be an important centre for research in a range of health sciences.

This joint initiative is based on international models such as the Cleveland Clinic and Mayo Clinic, leading US not-for-profit hospitals which have demonstrated improved patient outcomes are achieved in a teaching hospital setting.

Acute services at Epworth Geelong will include:
- cardiology
- oncology
- general medicine
- respiratory medicine
- neurology
- neurosurgery
- gastroenterology
- orthopaedics
- colorectal surgery
- urology
- vascular surgery
- obstetrics

Inpatient and outpatient rehabilitation services will include:
- neurology (stroke)
- orthopaedics
- trauma
- cardiac
- joint replacement
- spinal surgery
- respiratory treatment

Graduate nurses of Epworth Geelong will commence their program at one of the existing Epworth sites and relocate to Geelong in mid-2016.

Epworth’s expanding services offers the perfect opportunity to be part of shaping the future of patient care.

Leonie Lloyd – Clinical Operations Manager
Epworth Freemasons

Epworth Freemasons was established as Freemasons Hospital in 1937. The hospital now has a 286 bed capacity across two campuses in East Melbourne. Rated as one of the best maternity hospitals in Victoria, Epworth Freemasons has a dedicated team of experienced midwives and the latest equipment, and works with some of Victoria’s most respected obstetricians.

Epworth Freemasons also offers comprehensive cancer services, a broad range of surgical specialties including urology, breast and gynaecological surgery, and specialist breast, women’s and men’s health clinics.

The Clarendon Street building has a capacity of 178 beds, with six modern operating theatres, an Intensive Care Unit and Cancer Treatment Centre.

These services are complimented by Epworth Freemasons’ Day hospital in nearby Victoria Parade which was built in 1989 and houses a Maternity Unit with Special Care Nursery, a state of the art Day Procedure Centre with five theatres, a Day Oncology Unit, and specialised clinics and consulting suites for many of Melbourne’s top doctors and surgeons.

The Epworth Freemasons Maternity Unit opened in 1991 and has since developed a strong reputation as one of Melbourne’s leading maternity facilities. The Unit facilitates in excess of 3000 births per year:

- Comprising 37 beds providing antenatal and postnatal care
- Features a Level 2 Nursery with 10 cots and
- Includes 9 Birth Suites.
- Hospital in Hotel Outreach program

Epworth Freemasons has an excellent reputation in the treatment of cancer with Australia’s busiest brachytherapy seed program and two high capacity dual-energy linear accelerators as well as comprehensive chemotherapy and surgical services.

The hospital also has a dedicated Oncology Ward as well as a Day Oncology Unit which has 12 chairs and 3 beds and treats 500 patients per month.

In September 2000, Epworth Freemasons opened its Intensive Care Unit. This is a combined 8 bed Unit, Coronary Care and Intensive Care, with an additional 4 Telemetry beds.

Robotic surgery commenced in 2011 at Freemasons, with the installation of a da Vinci Robot HD Si for Urologic and Gynaecologic Surgery.

I was attracted by the level of support and I feel like I’m part of the family on the ward

Amy – Epworth Freemasons

Amy
Epworth Freemasons
Epworth Rehabilitation provides individualised programs for patients requiring inpatient, outpatient and community rehabilitation programs. The aim is to return individuals to as productive and functional status as possible, enabling people to live in the community with a lifestyle maximising functional ability and quality of life.

Rehabilitation specialists work alongside physiotherapists, occupational therapists, social workers, speech pathologists, psychologists, dieticians and rehabilitation nurses, to provide multi-disciplinary care for the following:

- Acquired Brain Injury
- Cardiac events
- Falls
- Musculoskeletal injuries
- Respiratory
- Orthopaedic surgery
- Pain syndromes
- Stroke and other neurological conditions such as Parkinson’s Disease
- Trauma

With rehabilitation hospitals and services located in Richmond, Brighton, Camberwell and Hawthorn. Epworth is internationally renowned for working with patients to maximise quality of life and independence.

Epworth Rehabilitation has 319 beds, located over 4 sites:

- Brighton
- Camberwell
- Richmond
- Hawthorn

Objective

Epworth’s rehabilitation program aims to provide an individualised program for a patient to achieve optimal functional potential in physical, work, social and recreational activities. This enables people to:

- Return to the community
- Reestablish their lifestyle as independently as possible
- Maximise their quality of life

Epworth is a dynamic workplace. They really value and invest in their staff.

James – Epworth Camberwell

Epworth Clinic provides specialist Mental Health services in our purpose built facility which is co-located at our recently redeveloped Epworth Camberwell site. Our multi-disciplinary clinical team plans and delivers highly individualized treatment for all of our patients. Our inpatient unit is comprised of 63 private rooms and we treat voluntary patients who are acutely unwell, in addition to offering a range of outpatient day programs. The Epworth Clinic provides a world-class facility to cater for the growing number of people struggling with mental health related illness.

The Mental Health team comprises:

- Professorial Chair of Psychiatry
- Medical Director
- Consultant Psychiatrists representing a number of clinical specialties within psychiatry
- Medical Officers
- Registered Nurses experienced in Mental Health
- Clinical Psychologists
- Social Workers
- Pastoral Care Workers

The team approach seeks to maximise the individual patient’s clinical outcomes and we pride ourselves upon ensuring clinical excellence and seek opportunities to improve the patients’ quality of life and recovery.

We offer a number of treatment modalities which include:

- Pharmacotherapy
- Electroconvulsive Therapy
- Transcranial Magnetic Stimulation
- Cognitive Behavioural Therapy
- Dialectic Behavioural Therapy
- Acceptance Commitment Therapy
- Schema Program
Richmond is the largest Epworth Campus. The hospital redevelopment is well underway and due to open at the end of 2015, which will provide the necessary infrastructure to effectively meet future health demands. The redevelopment means the hospital will have a total of 777 inpatient beds and 38 operating theatres by 2020. Epworth Richmond has grown over 90 years to be one of Australia’s leading specialist hospitals renowned both locally and overseas. Affiliated with Deakin, ACU and Melbourne Universities, we offer financial and clinical support for nurses undertaking post graduate studies in Critical Care (ICU, Cardiac and Emergency), Orthopaedics, Perioperative Nursing, Neuroscience, Oncology and General Medical/Surgical Nursing.

Epworth Richmond is equipped with quality facilities and latest technologies including a 15 bed Intensive Care Unit, 28 operating theatres, and Australia’s first da Vinci robotic system, day surgery facilities, 4 catheter laboratories, community care and Hospital in the Home. With close to 46,000 admissions, more than 1800 staff members and 1300 accredited visiting specialists, Epworth Richmond is a leading healthcare provider in Australia. More than 40,000 theatre procedures were performed at Epworth Richmond in 2013/14. Epworth Richmond Emergency Department is the largest private emergency centre in Melbourne. Annually, the Emergency Department treats more than 27,000 patients. Epworth Richmond has commenced a staged redevelopment process that will result in a state-of-the-art facility to meet the growing health needs of Victorians. The hospital is currently expanding in Emergency, Intensive Care, Perioperative and Cardiac services. Many of these services will be operational by the end of 2015.
